

# Be A Solution to Stormwater Pollution

Pollution prevention starts at the source. What can YOU do?

Never. Dump. Anything.  
Use fertilizers sparingly.  
Use pesticides only when necessary.

Sweep up & compost yard clippings.  
Pick up and dispose of pet waste.

Use a commercial car wash or  
wash on an unpaved area.  
Service vehicles to prevent leaks.

Use non-toxic biodegradable, recycled or  
recyclable products.  
Use local resources & collection centers.

Tell a friend how they can help!
